

Texts on the subject of truffles, black, *Tuber melanosporum*

On the subject of black truffle, winter truffle, *Tuber Melanosporum*, we offer extensive photo material and texts from a trip at the beginning of the truffle season to the Rhone - Alpes - Cote Azur region in the Var department in France. The content of the topic can be expanded to include the following aspects:

- [Truffle cultivation \(host plant, cycle, truffle cultivation on a plantation\)](#)
- [Truffle hunt with fly, dog or pig](#)
- [Culinary aspects \(traditional truffle dishes, processing of truffles\)](#)
- [Truffles - Visit to a global player on the international truffle market](#)
